Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the cited ^{prior}~~prior~~ art neither anticipates nor renders obvious the limitation in claims **1, 10 and 16** of displaying a running total image after every image capture, wherein the running total image comprises a single image built by adding the digital pixel values of corresponding pixels of the running total image and a temporary image in a manner akin to taking a double exposure or the like in a film camera (see Fig. 5). Note that the Examiner gave weight to the definition of running total image given in the specification as the Applicant was acting as their own lexicographer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
